

WELCOME

We are glad to have you as part of our Tear Mender family and thanks for “Trusting the Bish” with your repair needs.

Once You Are Acquainted with Tear Mender and discovered how simply it rubs off your fingers and just “crumbs” off, we are hoping you’d like to tell us about it and Join the “Trust The Bish” Club.

IN CASE YOU ARE NOT THAT FAMILIAR..HERE IS HOW YOU CAN BE. Soon after Bish first invented Tear Mender he discovered an easy way for most users to become familiar with it. Just pour out a droplet on to your kitchen counter or a table. Then touch that droplet with your finger. [Tear Mender will not harm solid surfaces or your finger]. Now rub the Tear Mender between that finger and your thumb for a few moments. Soon it will ball-up and like crumbs, fall off your finger.

PS: Remember, it is permanent in what it can penetrate.

TO JOIN THE “TRUST THE BISH” CLUB

Print out this PDF. On the back, write us a note describing how you used Tear Mender - or - your favorite use for it - or - it’s biggest every day benefit to you and/ or your family - or - your craziest idea for how Tear Mender could help with a repair or creation.

AS OUR THANKS..WE’LL MAIL A FREE PLASTIC CUP AND ROLLER APPLICATOR.
Other members of the club have found these to be kind of handy and useful.
